Strategic Direction 2
Engage effectively with community and key stakeholders through strong partnerships and alliances

Strategic Direction 3
Strengthen the decision-making systems that enable best health outcomes

Strategic Direction 4
Attract, grow and retain a talented workforce and foster a supportive working environment

Who we are

What we do

JH&FMHN delivers health care to adults and young people in contact with the forensic mental health and criminal justice systems, across community, inpatient and custodial settings.

JH&FMHN forms a vital component of the NSW public health system through its support of a highly vulnerable patient population whose health needs are often numerous and more complex than the wider community.

We are positioned with a special opportunity to respond to the health needs of these individuals who commonly have had minimal contact with mainstream health services in the community.

The Network cares for over 30,000 patients annually, a health community that is unique in NSW.

Where we are located

We provide services in many facilities across NSW:
